

SAFETY DATA SHEET KÖSTER Polysil TG 500

| SECTION 1: Identification of t | he substance/mixture and of the company/undertaking |
|----------------------------------|--|
| 1.1. Product identifier | |
| Product name | KÖSTER Polysil TG 500 |
| Product number | 0205 |
| 1.2. Relevant identified uses of | of the substance or mixture and uses advised against |
| Identified uses | Waterproofing product |
| 1.3. Details of the supplier of | the safety data sheet |
| Supplier | KÖSTER YAPI KİMYASALLARI İNŞ. SAN. VE TİC. A.Ş. GEBKIM Kimya Ihtisas OSB, Atatürk Bulvarı No:6, Dilovası, 41455 Kocaeli -Turkey Tel: +90 (262) 754 2020 www.koster.com.tr |
| Contact person | Mazlum BUDAK (Mr) - Quality Control Manager bilgi@koster.com.tr |
| 1.4. Emergency telephone nu | mber |
| Emergency telephone | Köster: +90 262 754 2020 |
| SECTION 2: Hazards identific | cation |
| 2.1. Classification of the subs | tance or mixture |
| Classification (EC 1272/2008) | |
| Physical hazards | Not Classified |
| Health hazards | Not Classified |
| Environmental hazards | Not Classified |
| 2.2. Label elements | |
| Hazard statements | NC Not Classified |
| 2.3. Other hazards | |
| SECTION 3: Composition/info | ormation on ingredients |
| 3.1. Substances | |
| Not applicable | |
| SECTION 4: First aid measures | |
| 4.1. Description of first aid me | pasures |
| General information | Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel. |
| Inhalation | Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist. |
| Ingestion | Rinse mouth thoroughly with water. If in doubt, get medical attention promptly. Do not induce vomiting unless under the direction of medical personnel. |
| | |

| Skin contact | Remove contaminated clothing and rinse skin thoroughly with water. Wash contaminated clothing before reuse. Get medical attention promptly if symptoms occur after washing. If in doubt, get medical attention promptly. |
|--|---|
| Eye contact | Rinse with water. Do not rub eye. Continue to rinse for at least 10 minutes. Remove any contact lenses and open eyelids wide apart. Get medical attention if any discomfort continues. |
| Protection of first aiders | First aid personnel should wear appropriate protective equipment during any rescue. |
| 4.2. Most important symptoms | and effects, both acute and delayed |
| General information | The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation | No specific symptoms known. |
| Ingestion | Nausea, vomiting. |
| Skin contact | Redness. Prolonged skin contact may cause temporary irritation. |
| Eye contact | Pain. Itchiness. Redness. May cause temporary eye irritation. |
| 4.3. Indication of any immedia | te medical attention and special treatment needed |
| Notes for the doctor | Treat symptomatically. |
| SECTION 5: Firefighting meas | sures |
| 5.1. Extinguishing media | |
| Suitable extinguishing media | The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire. Use foam, carbon dioxide, dry powder or water fog to extinguish. |
| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread the fire. |
| 5.2. Special hazards arising fro | om the substance or mixture |
| Hazardous combustion products | Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. |
| 5.3. Advice for firefighters | |
| Protective actions during firefighting | Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities. |
| Special protective equipment for firefighters | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents. |
| SECTION 6: Accidental release | e measures |
| 6.1. Personal precautions, pro | tective equipment and emergency procedures |
| Personal precautions | Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be |

Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Avoid contact with skin, eyes and clothing. Do not handle broken packages without protective equipment. Wash thoroughly after dealing with a spillage.

6.2. Environmental precautions

Environmental precautions Do not discharge into drains or watercourses or onto the ground.

6.3. Methods and material for containment and cleaning up

| Methods for cleaning up | Clear up spills immediately and dispose of waste safely. If the product is soluble in water, |
|-------------------------|--|
| | dilute the spillage with water and mop it up. Alternatively, or if it is not water-soluble, absorb |
| | the spillage with an inert, dry material and place it in a suitable waste disposal container. The |
| | contaminated absorbent may pose the same hazard as the spilled material. Label the |
| | containers containing waste and contaminated materials and remove from the area as soon |
| | as possible. Flush contaminated area with plenty of water. Wash thoroughly after dealing with |
| | a spillage. Leave small quantities to evaporate, if safe to do so. |

6.4. Reference to other sections

| Reference to other sections | For personal protection, see Section 8. See Section 11 for additional information on health |
|-----------------------------|---|
| | hazards. See Section 12 for additional information on ecological hazards. For waste disposal, |
| | see Section 13. |

SECTION 7: Handling and storage

| 7.1. Precautions for safe hand | dling | |
|---|--|--|
| Usage precautions | Read and follow manufacturer's recommendations. Obtain special instructions before use. Wear protective clothing as described in Section 8 of this safety data sheet. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use. Avoid the formation of mists. | |
| Advice on general occupational hygiene | Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse. | |
| 7.2. Conditions for safe storage | 7.2. Conditions for safe storage, including any incompatibilities | |
| Storage precautions | Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage. | |
| Storage class | Chemical storage. | |
| 7.3. Specific end use(s) | | |
| Specific end use(s) | The identified uses for this product are detailed in Section 1.2. | |
| SECTION 8: Exposure control | ls/Personal protection | |
| 8.1. Control parameters | | |
| 8.2. Exposure controls | | |
| Protective equipment | | |
| | | |

Appropriate engineering controls

Eye/face protection

Provide adequate ventilation.

Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.

| Hand protection | Wear protective gloves. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended. When used with mixtures, the protection time of gloves cannot be accurately estimated. It is recommended that gloves are made of the following material: Butyl rubber. Nitrile rubber. Polyvinyl chloride (PVC). |
|---------------------------------|---|
| Hygiene measures | Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse. |
| Respiratory protection | If ventilation is inadequate, suitable respiratory protection must be worn. |
| Environmental exposure controls | Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. |

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Appearance | Liquid. |
|--|---------------------------|
| Colour | Colourless. |
| Odour | Almost odourless. |
| Odour threshold | No information available. |
| рН | 11 |
| Melting point | No information available. |
| Initial boiling point and range | No information available. |
| Flash point | Not applicable. |
| Evaporation rate | No information available. |
| Evaporation factor | No information available. |
| Flammability (solid, gas) | No information available. |
| Upper/lower flammability or explosive limits | No information available. |
| Other flammability | No information available. |
| Vapour pressure | No information available. |
| Vapour density | No information available. |
| Relative density | No information available. |
| Bulk density | 1,2 g/cm3 |
| Solubility(ies) | Not applicable. |
| Partition coefficient | No information available. |
| Auto-ignition temperature | No information available. |
| Decomposition Temperature | No information available. |
| Viscosity | No information available. |
| | |

| Explosive properties | No information available. | |
|--|---|--|
| Oxidising properties | Not known. | |
| 9.2. Other information | | |
| Refractive index | No information available. | |
| Particle size | No information available. | |
| Molecular weight | No information available. | |
| Volatility | No information available. | |
| Saturation concentration | No information available. | |
| Critical temperature | No information available. | |
| Volatile organic compound | No information available. | |
| SECTION 10: Stability and rea | activity | |
| 10.1. Reactivity | | |
| Reactivity | There are no known reactivity hazards associated with this product. | |
| 10.2. Chemical stability | | |
| Stability | Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. | |
| 10.3. Possibility of hazardous reactions | | |
| Possibility of hazardous reactions | No potentially hazardous reactions known. | |
| 10.4. Conditions to avoid | | |
| Conditions to avoid | There are no known conditions that are likely to result in a hazardous situation. | |
| 10.5. Incompatible materials | | |
| Materials to avoid | No specific material or group of materials is likely to react with the product to produce a hazardous situation. | |
| 10.6. Hazardous decompositio | on products | |
| Hazardous decomposition products | Does not decompose when used and stored as recommended. | |
| SECTION 11: Toxicological int | formation | |
| 11.1. Information on toxicological effects | | |
| Skin corrosion/irritation | | |
| Skin corrosion/irritation | Slightly irritating. | |
| Serious eye damage/irritation Serious eye damage/irritation | Slightly irritating. | |
| Respiratory sensitisation Respiratory sensitisation | Based on available data the classification criteria are not met. | |
| Skin sensitisation Skin sensitisation | Based on available data the classification criteria are not met. | |
| Germ cell mutagenicity | | |

| 13.1. Waste treatment methods | SECTION 13: Disposal considerations | | |
| | | | |

| General information | The generation of waste should be minimised or avoided wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. |
|----------------------------|---|
| Disposal methods | Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. |
| SECTION 14: Transport info | rmation |
| General | The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID). |
| 14.1. UN number | |
| Not applicable | |

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code
