|                                 | atements is displayed in Section 16.   |  |
| SECTION 4: First aid measu      |  |  |
| 4.1. Description of first aid m |  |  |
| General information             | Show this Safety Data Sheet to the medical physician. Remove affected person from sou  | personnel. Chemical burns must be treated by a<br>urce of contamination.   |
| nhalation                       |  | warm and at rest in a position comfortable for<br>ar, tie or belt. Get medical attention if symptoms   |
| ngestion                        | Rinse mouth thoroughly with water. If in doul vomiting unless under the direction of medication of m | bt, get medical attention promptly. Do not induce<br>al personnel.   |
| Skin contact                    | occur after washing. Get medical attention p   | d skin with plenty of water before removing<br>utes. Get medical attention promptly if symptom<br>romptly if symptoms occur after washing. Effects<br>r observation. Wash clothing and clean shoes |
| Eye contact                     | water. Continue to rinse for at least 10 minut   | g. If in doubt, get medical attention promptly.  |
| Protection of first aiders      | First aid personnel should wear appropriate  | protective equipment during any rescue.  |
| 4.2. Most important symptom     | ns and effects, both acute and delayed   |  |
| General information             | The severity of the symptoms described will length of exposure.  | vary dependent on the concentration and the  |
| nhalation                       | May cause respiratory system irritation.   |  |
| ngestion                        | May cause chemical burns in mouth, oesoph  | nagus and stomach.   |
| Skin contact                    | Causes severe burns. Prolonged contact ca  | uses serious tissue damage.  |
| Eye contact                     | Prolonged contact causes serious eye and ti  | issue damage. Burns can occur.   |
| 4.3. Indication of any immedi   | ate medical attention and special treatment nee  | eded   |
| Notes for the doctor            | Treat symptomatically.   |  |

### SECTION 5: Firefighting measures

5.1. Extinguishing media

| Suitable extinguishing media                     | The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire. Use foam, carbon dioxide, dry powder or water fog to extinguish.  |
|--|---|
| Unsuitable extinguishing media                   | Do not use water jet as an extinguisher, as this will spread the fire.  |
| 5.2. Special hazards arising fro                 | om the substance or mixture   |
| Hazardous combustion<br>products                 | Thermal decomposition or combustion products may include the following substances:<br>Harmful gases or vapours.   |
| 5.3. Advice for firefighters                     |   |
| Protective actions during firefighting           | Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities. |
| Special protective equipment<br>for firefighters | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.  |
| SECTION 6: Accidental releas                     | e measures  |
| 6.1. Personal precautions, prot                  | tective equipment and emergency procedures  |
| Personal precautions                             | Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Avoid contact with skin, eyes and clothing. Do not handle broken packages without protective equipment. Wash thoroughly after dealing with a spillage.  |
| 6.2. Environmental precautions                   | 8   |
| Environmental precautions                        | Do not discharge into drains or watercourses or onto the ground. Use appropriate containment to avoid environmental contamination. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.  |
| 6.3. Methods and material for                    | containment and cleaning up   |
| Methods for cleaning up                          | Neutralise with acid. Absorb in vermiculite, dry sand or earth and place into containers. Place waste in labelled, sealed containers. Clear up spills immediately and dispose of waste safely. The contaminated absorbent may pose the same hazard as the spilled material. Label the containers containing waste and contaminated materials and remove from the area as soon as possible. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage.                                   |
| 6.4. Reference to other section                  | <u>15</u>   |
| Reference to other sections                      | For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.   |
| SECTION 7: Handling and stor                     | rage  |
| 7.1. Precautions for safe hand                   |   |

#### 7.1. Precautions for safe handling

Usage precautions

Read and follow manufacturer's recommendations. Obtain special instructions before use. Wear protective clothing as described in Section 8 of this safety data sheet. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use. Avoid the formation of mists.

| Advice on general occupational hygiene                     | Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse.  |  |  |
|--|---|--|--|
| 7.2. Conditions for safe storag                            | 7.2. Conditions for safe storage, including any incompatibilities   |  |  |
| Storage precautions  | Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs. Keep<br>only in the original container. Keep container tightly closed, in a cool, well ventilated place.<br>Keep containers upright. Protect containers from damage. Store away from the following<br>materials: Acids.  |  |  |
| Storage class  | Corrosive storage.  |  |  |
| 7.3. Specific end use(s)                                   |   |  |  |
| Specific end use(s)  | The identified uses for this product are detailed in Section 1.2.   |  |  |
| SECTION 8: Exposure control                                | s/Personal protection   |  |  |
|  | our TWA): TLV:Threshold Limit Values 10 ppm 45 mg/m³  |  |  |
| 8.2. Exposure controls                                     |   |  |  |
| Protective equipment                                       |   |  |  |
|  |   |  |  |
| Appropriate engineering controls                           | Provide adequate ventilation. Avoid inhalation of vapours and spray/mists.  |  |  |
| Eye/face protection  | Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.  |  |  |
| Hand protection  | Wear protective gloves. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended. When used with mixtures, the protection time of gloves cannot be accurately estimated. It is recommended that gloves are made of the following material: Nitrile rubber. Viton rubber (fluoro rubber). |  |  |
| Hygiene measures   | Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.<br>Wash contaminated clothing before reuse.   |  |  |
| Respiratory protection                                     | If ventilation is inadequate, suitable respiratory protection must be worn.   |  |  |
| Environmental exposure controls                            | Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.  |  |  |
| SECTION 9: Physical and che                                | emical properties   |  |  |
| 9.1. Information on basic physical and chemical properties |   |  |  |
| Appearance   | Liquid.   |  |  |

| Appearance | Liquid.         |
|------------|-----------------|
| Colour     | Colourless.     |
| Odour      | Characteristic. |

| Carcinogenicity<br>Carcinogenicity                             | Based on available data the classification criteria are not met.                  |
| Reproductive toxicity  |   |
| Reproductive toxicity - fertility                              | Based on available data the classification criteria are not met.                  |
| Reproductive toxicity -<br>development                         | Based on available data the classification criteria are not met.                  |
| Specific target organ toxicity -                               |   |
| STOT - single exposure   | Not classified as a specific target organ toxicant after a single exposure.       |
| Specific target organ toxicity -                               |   |
| STOT - repeated exposure                                       | Not classified as a specific target organ toxicant after repeated exposure.       |
| Aspiration hazard<br>Aspiration hazard                         | Based on available data the classification criteria are not met.                  |
| Inhalation   | No adverse effects known.   |

| Ingestion                          | May cause stomach pain or vomiting.   |  |
|------------------------------------|---|--|
| Skin contact                       | Redness. Irritating.  |  |
| Eye contact                        | Causes serious eye irritation. Redness. Irritation and redness, followed by blurred vision.   |  |
| SECTION 12: Ecological info        | rmation   |  |
| Ecotoxicity                        | The product may affect the acidity (pH) of water which may have hazardous effects on aquatic organisms. Dangerous for the environment if discharged into watercourses. The product contains a substance which may have hazardous effects on the environment.  |  |
| 12.1. Toxicity                     |   |  |
| Toxicity                           | No information available.   |  |
| 12.2. Persistence and degrad       | ability   |  |
| Persistence and degradability      | The degradability of the product is not known.  |  |
| 12.3. Bioaccumulative potenti      | al de la companya de la companya de la companya de la companya de la companya de la companya de la companya de  |  |
| Bioaccumulative potential          | No data available on bioaccumulation.   |  |
| Partition coefficient              | No information available.   |  |
| 12.4. Mobility in soil             |   |  |
| Mobility                           | No information available.   |  |
| 12.5. Results of PBT and vPv       | B assessment  |  |
| Results of PBT and vPvB assessment | This product does not contain any substances classified as PBT or vPvB.   |  |
| 12.6. Other adverse effects        |   |  |
| Other adverse effects              | Dangerous for the environment.  |  |
| SECTION 13: Disposal consid        | derations   |  |
| 13.1. Waste treatment metho        | ds  |  |
| General information                | The generation of waste should be minimised or avoided wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. |  |
| Disposal methods                   | Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.   |  |
| SECTION 14: Transport information  |   |  |
| 14.1. UN number                    |   |  |
| UN No. (ADR/RID)                   | 2735  |  |
| UN No. (IMDG)                      | 2735  |  |
| UN No. (ICAO)                      | 2735  |  |
| UN No. (ADN)                       | 2735  |  |
| 14.2. UN proper shipping nan       | 1e  |  |
| Proper shipping name<br>(ADR/RID)  | —<br>AMINES, LIQUID, CORROSIVE, N.O.S.(3-aminomethyl-3,5,5-trimethylcyclohexylamine,<br>triethylenetetramine)   |  |
|                                    |   |  |

| Proper shipping name (IMDG) | AMINES, LIQUID, CORROSIVE, N.O.S.(3-aminomethyl-3,5,5-trimethylcyclohexylamine, triethylenetetramine) |
|-----------------------------|---|
| Proper shipping name (ICAO) | AMINES, LIQUID, CORROSIVE, N.O.S.(3-aminomethyl-3,5,5-trimethylcyclohexylamine, triethylenetetramine) |
| Proper shipping name (ADN)  | AMINES, LIQUID, CORROSIVE, N.O.S.(3-aminomethyl-3,5,5-trimethylcyclohexylamine, triethylenetetramine) |

#### 14.3. Transport hazard class(es)

| ADR/RID class               | 8  |
|-----------------------------|----|
| ADR/RID classification code | C7 |
| ADR/RID label               | 8  |
| IMDG class                  | 8  |
| ICAO class/division         | 8  |
| ADN class                   | 8  |
| Transport labels            |    |

| 14.4. Packing group   |    |
|-----------------------|----|
| ADR/RID packing group | II |
| IMDG packing group    | П  |
| ICAO packing group    | П  |
| ADN packing group     | П  |
|                       |    |

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

| EmS                                    | F-A, S-B |
|--|----------|
| ADR transport category                 | 2        |
| Emergency Action Code                  | 2X       |
| Hazard Identification Number (ADR/RID) | 80       |
| Tunnel restriction code                | (E)      |
| Stowage category (IMDG)                | А        |
| PCA packing instructions (IATA)        | 855      |
| CAO packing instructions<br>(IATA)     | 851      |
| Special provisions (IATA)              | A3       |
| ERG code (IATA)                        | 8L       |

#### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

#### Uygulanamaz

| SECTION 15: Regulatory information   |  |  |  |
|--|--|--|--|
| 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture |  |  |  |
| National regulations   | EH40/2005 Workplace exposure limits.<br>Health and Safety at Work etc. Act 1974 (as amended).<br>The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment<br>Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"]. |  |  |

#### 15.2. Chemical safety assessment

#### SECTION 16: Other information

| Classification abbreviations<br>and acronyms | Acute Tox. = Acute toxicity<br>Skin Corr. = Skin corrosion<br>Eye Dam. = Serious eye damage<br>Skin Sens. = Skin sensitisation<br>Aquatic Chronic = Hazardous to the aquatic environment (chronic)   |
|--|--|
