KÖSTER MO 20 Sand

Silica sand for epoxy and polyurethane based coatings

General Information:

Sieved, dried silica sand of 0.2 - 0.7 mm size, used in epoxy and polyurethane based floor coatings and mortars.

Consumption:

Depends on the application

Packaging:

25 kg bag

Storage:

Shelf life (in a dry and cool environment, in original and unopened packaging) is 24 months.

Attention:

Do not inhale the dust. Use protective mask, gloves and goggles. Avoid eye and skin contact. In case of skin contact, wash with plenty of soap and water and seek medical advice immediately. Keep out of reach of children.

Legal Notes: This guide has been issued to provide details regarding the use and application of our products, which can be used in very wide and various areas and to demonstrate the general technical details. This information reflects the knowledge and expertise of our company and is of recommendation nature. Especially, the details regarding implementation and final use are provided with good will to cover the storage, handling and application of our products under normal and recommended conditions. Products, application surfaces, areas and application conditions vary in practice. Therefore, it is of utmost importance to make sure you are applying the right product, at the right conditions and places. Since KÖSTER cannot check how its products are used, it does not accept any responsibility regarding the results of the application and does not provide any guarantees. Information provided here or written/verbal information provided by KÖSTER employees should solely be considered as recommendation. KÖSTER employees to visit the application area do not create any supervisor responsibilities on our part. The product users (user) should test the suitability of the product they are planning to use for the respective application and purpose. KÖSTER has the right to modify its products without announcement. Acceptance of all orders is based on our current sale and transportation terms and conditions. Users should always consider the final version of the local Technical Sheet of the respective product, which can be obtained by applying to KÖSTER. Product users should act cautious and observe and protect their own interests and property rights. They are even obliged to act in this manner. This guide only covers KÖSTER products and is not valid for products of other companies. Only the written announcements of our company are valid regarding matters that require technical support provided by us. This technical document is valid until a new version is printed and supersedes all previous versions.
